

TF80

High Efficiency Feeder Stacker

The McCloskey™ TF80 Mobile Feeder Stacker is enhancing the process of stockpiling materials that traditionally can cause blockages in conventional stackers. The TF80 facilitates the handling and stockpiling of large wood waste, bark, compost and topsoil, all of which can be fed into the hopper with large loaders and excavators.

In addition to the enhanced mobility, a large feeder hopper, wide heavy duty 80' long conveyor, and a heavy duty feeder make the TF80 a robust, mobile stockpiling conveyor for use across a number of industries.

Available with numerous custom options to meet each customer's unique material requirements.

Features

- 1200 mm (48") wide heavy duty 80' long conveyor
- CAT 4.4 97KW (130HP) engine
- Hydraulic folding heading section for transport minimizing setup time.
- 1200 mm (48") wide heavy-duty impact feeder
- Large feed hopper
- Hydraulic leveling jacks
- Fast on-site setup time (5 minutes)

Hydraulic Folding Fold

Straightforward hydraulic controls to fold and unfold, raise and lower conveyor.

48" Chevron Main Conveyor

Allows stockpiling of high volume materials without spillage or bottlenecks.

Large Hopper

Steel hopper allows operators to load 11.6m³ of standard aggregates with hopper extensions option to increase capacity.

Open Access Engine Bay

Provides class leading access to hydraulic valves and the transverse mounted Diesel engine.

Tracked Mobility

Fully portable stockpiling solutions available as wheel mounted trailer unit (WF80) or a track unit for maximum onsite mobility.

Dimensions and Capacities

Engine	97kW (130Hp)
Transport Length	19.45m (63' 10")
Transport Width	2.92m (9' 7")
Transport Height	3.54m (11' 7")
Weight	30,400kg approx. (67,000 lbs)
Working Height	12.95m (42' 6")
Working Length	30.27m (99' 4")
Hopper Capacity	11.6m ³ (15.7 yd ³)
